empower students to be the change join the teaching mathematics for social justice movement we live in an era in which students have through various media and their lived experiences a more visceral experience of social economic and environmental injustices however when people think of social justice mathematics is rarely the first thing that comes to mind through model lessons developed by over 30 diverse contributors this book brings seemingly abstract high school mathematics content to life by connecting it to the issues students see and want to change in

the world along with expert guidance from the lead authors the lessons in this book explain how to teach mathematics for self and community empowerment it walks teachers step by step through the process of using mathematics across all high school content domains as a tool to explore understand and respond to issues of social injustice including environmental injustice wealth inequality food insecurity and gender lgbtq and racial discrimination this book features content cross referenced by mathematical concept and social issues downloadable instructional materials for student use user friendly and logical interior design for daily use guidance for designing and implementing social justice lessons driven by your own students unique passions and challenges timelier than ever teaching mathematics through the lens of social justice will connect content to students daily lives fortify their mathematical understanding and expose them to issues that will make them responsive citizens and leaders in the future

if you teach middle school math and have wanted to promote social justice but haven t been sure how to get started you need to check out this book it incorporates lessons you can use immediately as well as how to foster the kind of classroom community where students will thrive it s the kind of book you ll want to have alongside you to support you throughout your journey robert kaplinsky author and consultant long beach ca empower young adolescents to be the change join the teaching mathematics for social justice movement students of all ages and intersecting identities through media and their lived experiences bear witness to and experience social injustices and movements around the world for greater justice however when people think of social justice mathematics rarely comes to mind with a user friendly design this book brings middle school mathematics content to life by connecting it to issues students see or experience developed for use by grades 6 8 educators the contributed model lessons in this book walk teachers through the process of applying critical frameworks to instruction using standards based mathematics to explore understand and respond to social injustices learn to plan daily instruction that engages young adolescents in mathematics explorations through age appropriate culturally relevant topics such as health and economic inequality human and civil rights environmental justice and accessibility features include content cross referenced by mathematical concept and social issues connection to learning for justice s social justice standards downloadable teacher materials and lesson resources guidance for lessons driven by young adolescents unique passions and challenges connections between research and practice written for teachers committed to developing equitable and empowering practices through the lens of mathematics content and practice standards as well as social justice standards this book will help connect content to young adolescents daily lives strengthen their mathematical understanding and expose them to issues that will support them in becoming active agents of change and responsible leaders

schools are filled with great teachers but is great teaching taking place in every classroom in every school bruce robertson doesn t believe it is why not this book argues that there are two reasons firstly because there isn t a shared understanding of what makes great teaching secondly because schools haven t developed the strong professional learning culture necessary to drive the development of great teaching in every classroom through discussion of key messages from educational research and drawing on a track record of success this book explores how these barriers can be addressed leading to transformations in teaching practice across classrooms and schools

as environmental concerns become more prevalent it is important for today s youth to be exposed to green practices the introduction of environmentally sound principles into educational systems and institutions helps establish a positive viewpoint on sustainability as well as promote green practices marketing the green school form function and the future features the latest research surrounding the operational efficiency financial and legal considerations and effectiveness of environmentally friendly school systems as well as the integration of environmental

education curriculum investigating the impact a green environment has on student well being and success this book is an essential reference source for school superintendents school business managers contractors architects and civil engineers interested in the development and promotion of green initiatives in educational institutions

teachers help students learn develop and realize their potential to become successful in their craft teachers need to learn how to establish high quality relationships with their students and they need to learn how to implement instructional strategies that promote students learning development and potential to prepare pre service teachers for the profession the study of educational psychology can help them to better understand their students and better understand their process of teaching such is the twofold purpose of educational psychology to help pre service teachers understand their future students better and to help them understand all aspects of the teaching learning situation the pursuit of these two purposes leads to the ultimate goal of this text namely to help pre service teachers become increasingly able to promote student learning development and potential when it becomes their turn to step into the classroom and take full time responsibility for their own classes
