profits that lie hidden in wordpress hello as you re probably aware by now you really can t succeed online unless you have good web presence for your products and or services but it can be time consuming overwhelming and even expensive to learn html coding etc or pay people to put up websites for you thankfully there is wordpress it s the standard blogging and website creation platform for even top brands and succesful online entrepreneurs anybody who knows what they re doing can put up the most high tech smartest

websites with all the automated bells and whistles made in one sitting yes that s now possible even complete beginners can simply mix and match themes and plugins to come up with professional looking and functional websites the site visitors wouldn t even know you re a complete beginner if you do it correctly wordpress can be as simple and uncomplicated as you want it to be all you need to know are the basics and that s what this book course is about this book is entirely written for the absolute beginner nothing on this book will overwhelm and scare you away you can even use this book as guide for your newbie assistants just follow along the step by step process and within an hour or two you can have your very own website up and running as your needs become more sophisticated you can then learn html and css coding install premium themes and plugins capture emails get likes autopost content etc to suit your needs the learnings and experience you get from this book will also help you in the future as your needs become more complex specifically the book will cover the following introduction ii creating a new account iii applying themes plugins and widgets themes plugins widgets iv exploring your work station how to login the dashboard screen options tab dashboard home screen the admin bar turning off the admin bar the settings general settings writing settings reading settings discussion settings media settings permalink settings keeping your work station efficient maximize your wordpress site v creating content wordpress posts vs pages how to create a new post how to create a new page search engine optimization seo set your website s visibility make your links seo ready decide whether to use or not choose an seo plugin add xml sitemaps include your site to google search console optimize all of your posts vi using wordpress with your own domain ideal for businesses where to begin a third party hosting service provider ftp knowledge enable backup capability domain name installation process for hosting providers without one click function for wordpress vii keeping your wordpress site secure backup your website regularly avoid using admin as your username limit your login attempts change your username using phpmyadmin create another user come up with a challenging password viii conclusion highly customizable room for expansion lower maintenance cost perfect for everyone grab your copy now

the highest rated wordpress development and design book on the market is back with an all new third edition professional wordpress is the only wordpress book targeted to developers with advanced content that exploits the full functionality of the most popular cms in the world fully updated to align with wordpress 4.1 this edition has updated examples with all new screenshots and full exploration of additional tasks made possible by the latest tools and features you will gain insight into real projects that currently use wordpress as an application framework as well as the basic usage and functionality of the system from a developer s perspective the book s key features include detailed information and real world examples that illustrate the concepts and techniques at work plus code downloads and examples accessible through the companion website written by practicing wordpress developers the content of this

edition focuses on real world application of wordpress concepts that extend beyond the current wordpress version wordpress started in 2003 with a single bit of code to enhance the typography of everyday writing and has grown to be the largest self hosted website platform in the world this book helps you use wordpress efficiently effectively and professionally with new ideas and expert perspectives on full system exploitation get up to speed on the new features in wordpress 4.1 learn cutting edge uses of wordpress including real world projects discover how to migrate existing websites to wordpress understand current best practices and tools in wordpress development wordpress was born out of a desire for an elegant well architected personal publishing system built on php and mysql and has evolved to be used as a full content management system through thousands of plugins widgets and themes professional wordpress is the essential developer s guide to this multifunctional system

how is the israel palestine question narrated in western academia what ideas dominate the key textbooks on the subject and what is presented as truth this book answers these critical questions it is widely known that western support of israel played a vital role in the realization of zionist objectives in palestine but academic support of israel in the west has been a neglected issue with western academic knowledge being regarded as impartial and objective this book reveals that this understanding of western academic knowledge is wrong when it comes to the israel palestine question rather knowledge has been biased misleading and dogmatic and western college students are subscribing to factual histories based on theories at best if not fiction the book is the first empirical investigation able to document this partial reporting of history seyed hadi borhani examines the most popular college level textbooks used to teach the history of the israel palestine in western universities combining textbook analysis to determine how the dominant academic texts report the question and a context analysis to identify who manufactures the dominant knowledge the book provides a historical map of how the israel palestine conflict is understood in the west the book can be used as a critique for students and professors to use alongside textbooks and is a vital and much needed intervention into the state of affairs in western academia
